

## Want to be part of a multidisciplinary team?

Have you worked in...

**disability services?**

**mental health?**

**youth services?**

**aged care?**

**health services?**

**This is your opportunity to be part of an innovative service supporting adults with a disability and challenging behaviours in Queensland.**

The Specialist Response Service is looking for experienced **psychologists, speech and language pathologists, occupational therapists, behavioural analysts, social workers, nurses and other behavioural specialists** to provide best practice in behaviour support to assist clients to participate in everyday life.

***We have a range of clinician roles available across Queensland now.***

Disability Services Queensland offers flexible working conditions, professional development and competitive superannuation.
